As of July 2, 2019, the Editor issues an Expression of Concern to advise readers that an investigation is underway concerning the dimethyl oxalate + methanol binary data (Table S), 1,2-butanediol + methanol binary data (Table S), and dimethyl oxalate + methanol + 1,2-butanediol ternary data (Table 6), as well as the procedures used to test thermodynamic consistency in the article. The status of this article will be updated upon the completion of editorial review and the outcome of that investigation.
