Supporting Information

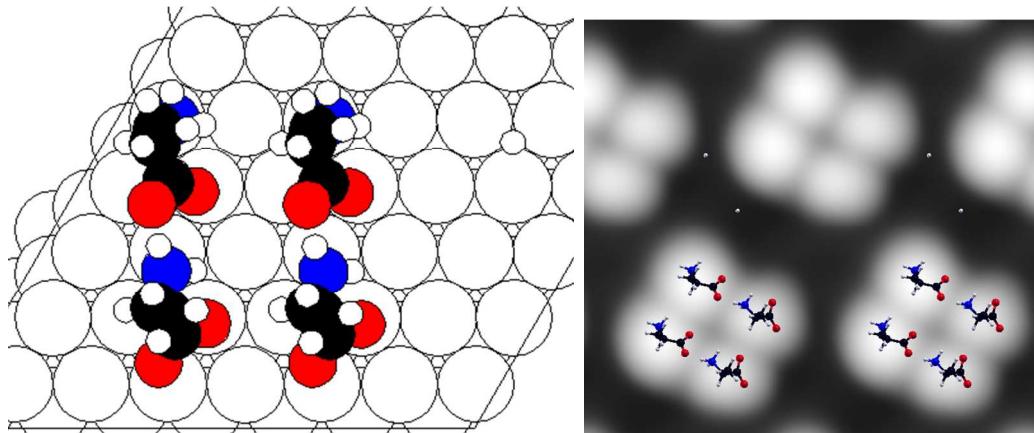

Fig. S1: Mixed-zwitterionic/anionic Structure 1. Tetramer stabilization energy = -15.3 kJ/mol/molecule

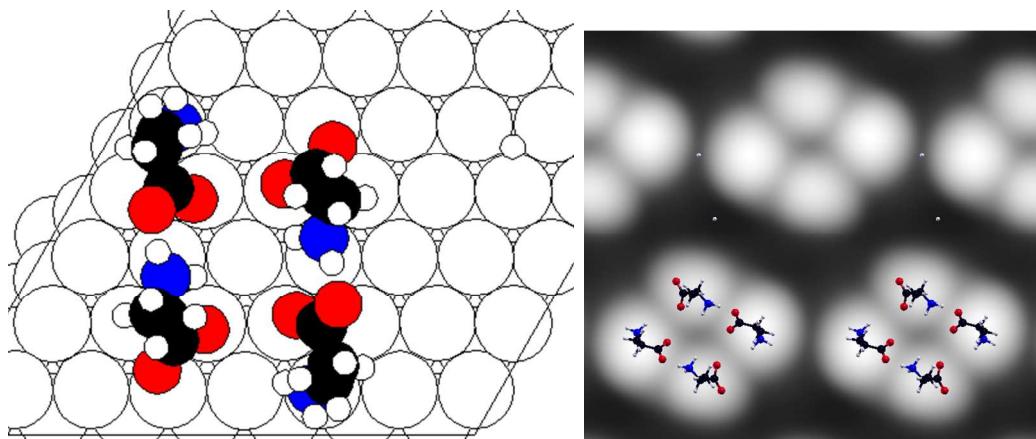

Fig. S2: Mixed-zwitterionic/anionic Structure 2. Tetramer stabilization energy = -16.2 kJ/mol/molecule.

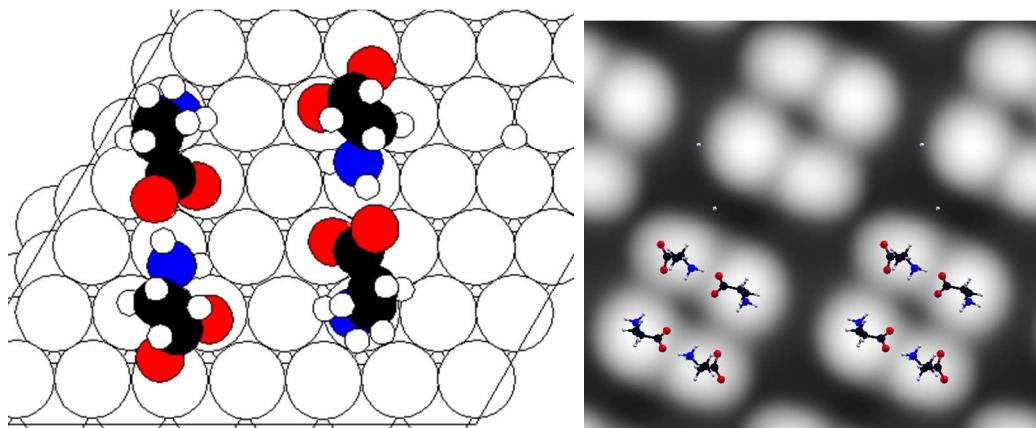

Fig. S3: Mixed-zwitterionic/anionic Structure 3. Tetramer stabilization energy = -17.6 kJ/mol/molecule.

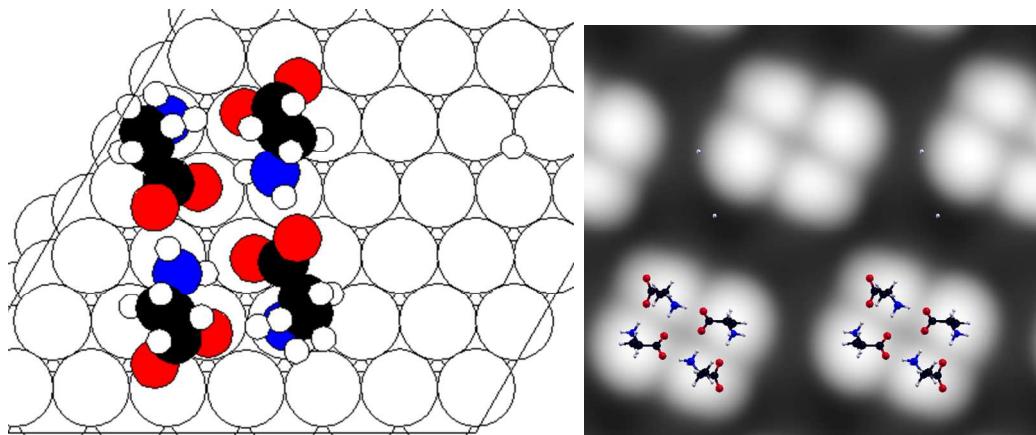

Fig. S4: Mixed-zwitterionic/anionic Structure 4. Tetramer stabilization energy = -25.8 kJ/mol/molecule.
