

Supporting information for

“Selective electroless copper deposition on self-assembled dithiol monolayers”

Dmitry Aldakov, Yvan Bonnassieux, Bernard Geffroy, and Serge Palacin

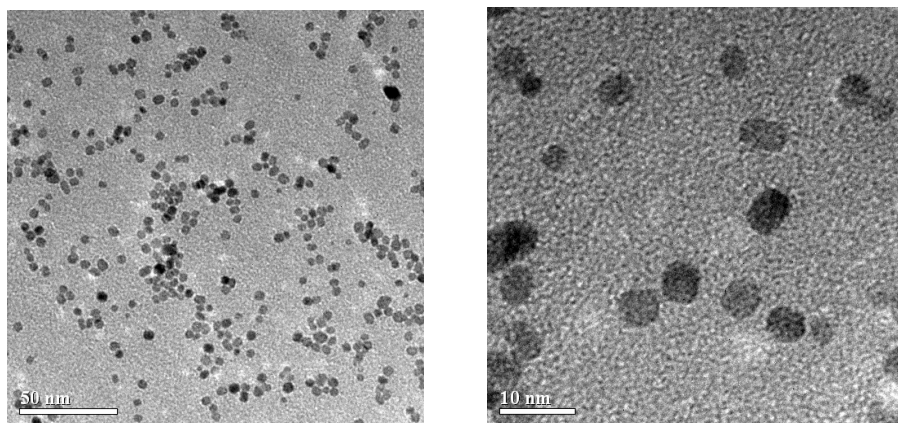

Figure 1. TEM micrographs of Pd nanoparticles

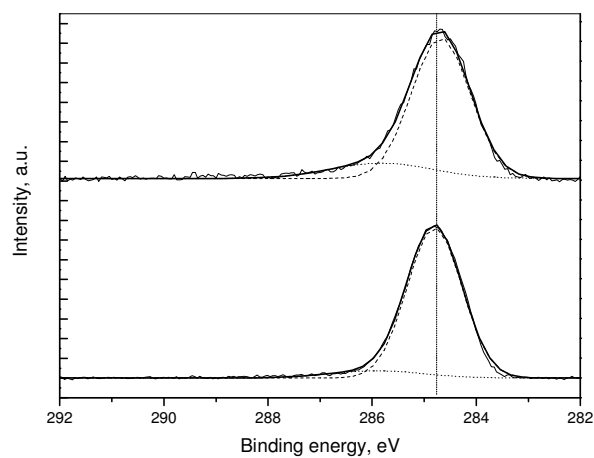

Figure 2. Carbon XPS spectra of Au/HDT monolayer (bottom) and Au/HDT/Pd (top). Fitted peaks of C 1s and its oxidized form are represented by dashed and dotted lines respectively.

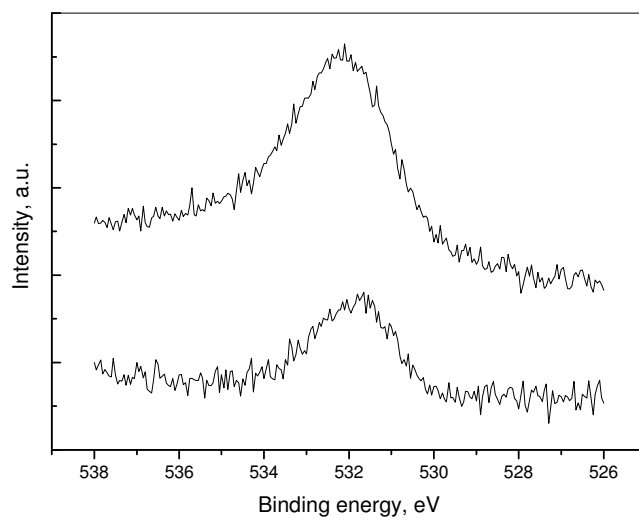

Figure 3. Oxygen XPS spectra of Au/HDT monolayer (bottom) and Au/HDT/Pd (top).
