Rhodium(II)-Catalyzed Aziridination of Allyl Substituted Sulfonamides and Carbamates

Albert Padwa, Andrew C. Flick, Carolyn A. Leverett, and Thomas Stengel
Department of Chemistry, Emory University, Atlanta, Georgia 30322*

Page S1	Supplementary Material title page
Page S2	Ortep of 6-Methoxy-1-aza-spiro[4.4]nonan-2-one (30)
Page S3	Ortep of N-Phenylsulfonyl-2-(methylcarbonyloxy)spiro[3 <i>H</i> -indole-3,2'oxazolidine]-5'-one (41)
Page S4	Ortep of N-Phenylsulfonyl-2-(2-propenyloxy)-spiro[3 H-indole-3,2'oxazolidine]-5'- one (48)

Supplementary Material

Rhodium(II)-Catalyzed Aziridination of Allyl Substituted Sulfonamides and Carbamates

Albert Padwa, Andrew C. Flick, Carolyn A. Leverett, and Thomas Stengel*

Department of Chemistry, Emory University, Atlanta, Georgia 30322

Supporting Information Available: ORTEP drawings for structures **30**, **41**, and **48**.

The authors have deposited atomic coordinates for these structures with the Cambridge Crystallographic Data Centre. This material is available free of charge *via* the Internet at <http://pubs.acs.org>.

Ortep of 6-Methoxy-1-aza-spiro[4.4]nonan-2-one (30)

Ortep of *N*-Phenylsulfonyl-2-(methylcarboxyloxy)spiro[3*H*-indole-3,2'-oxazolidine]-5'-one (**41**)

S4

Ortep of *N*-Phenylsulfonyl-2-(2-propenyloxy)-spiro[3*H*-indole-3,2'-oxazolidine]-5'-one (**48**)
