Contents

Figure S1 Comparison between the IR spectra of bare H⁺(MeOH)_n(H₂O)₁ (*n* = 7 - 10) measured by monitoring two different dissociation channels.

Complete Reference 75

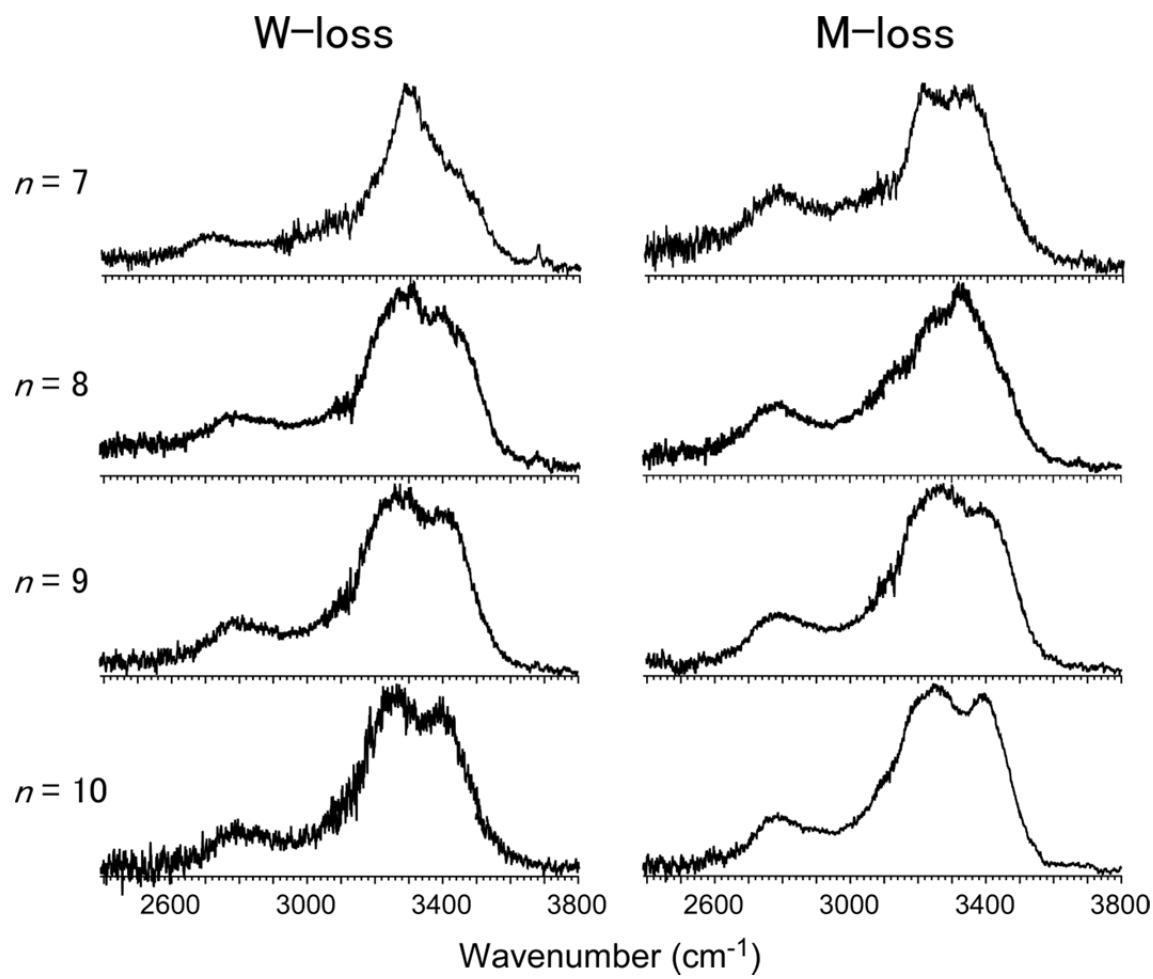

Figure S1 Comparison between the IR spectra of bare $\text{H}^+(\text{MeOH})_n(\text{H}_2\text{O})_1$ ($n = 7 - 10$) measured by monitoring the water (W)-loss dissociation channel (left column) and the methanol (M)-loss dissociation channel (right column). Note that differences between the spectra at the same size become negligible with increasing cluster size (n).

Complete Reference 75
